

The only submersible pump with no mechanical seals, no wear plates and no internal friction.

## Features

- Very High Flow Rates
- High Vertical Head Pressure
- Self Priming
- Run Dry Technology
- Variable Speed & Flow
- Small Portable Size
- Corrosion Resistant Aluminum
- NO Mechanical Seals
- NO Internal Friction
- Low Maintenance Design
- Not for Solids Pumping

## Model FF 3 A

*For pumping water & clear fluids*

Fast Flow's patented double suction technology produces superior flow rates and high head pressures. It is the only line of submersible pumps with no mechanical seals and no internal friction allowing the pump to run dry or cavitate. The high efficiency hydraulic motors have several advantages over electric submersibles.

## Competitive Advantages

- Lightweight and Portable at 28 LBS
- Single person can lift and position
- Corrosion resistant aluminum for long life
- Cost effective compared to other pumps
- Simple design allows for easy servicing
- Field service in under an hour
- Replacement parts shipped anywhere
- Easily repairable by average technician
- Reduces costly pump rebuilding
- Anti clog double suction technology

## Fast Facts

Weight:	28 Pounds
Max Water Flow:	550 GPM
Vertical Head:	300 Feet Max
Operating PSI:	2000 to 3300 PSI
Hydraulic Flow:	4 to 21 GPM
Power Source:	Hydraulic Driven
Material:	Aluminum
Discharge:	3" Male Cam Lock
Dimensions:	16" x 10" x 11"
Hydraulic Oil:	AW-32 or AW-46

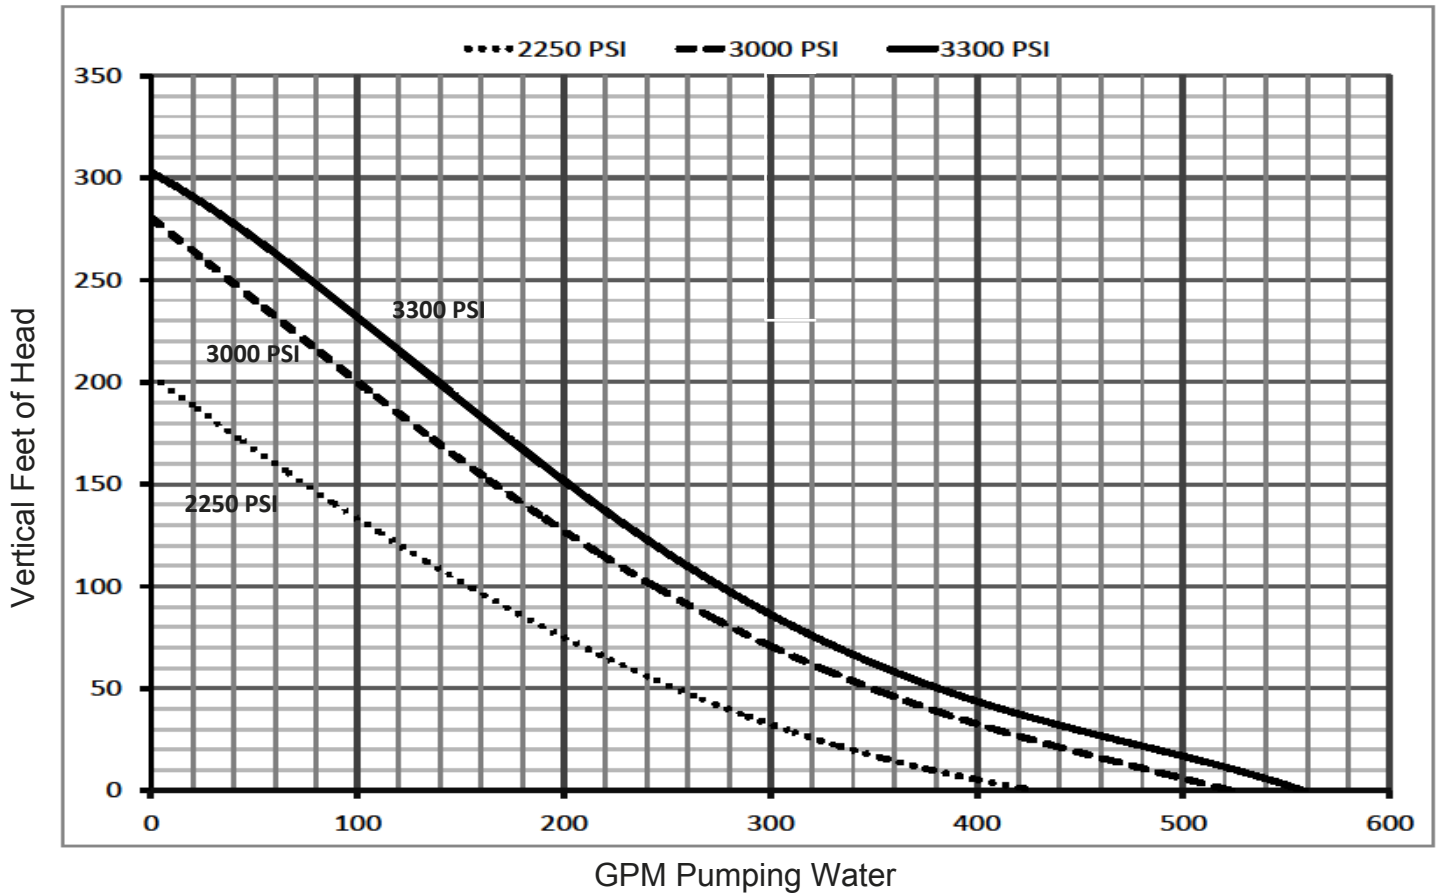

USPTO # 8,152,443 • 7,442,003 • 6,942,448

# Fast Flow Applications

## 3" Aluminum Pump Curve

*Pump shown with optional debris cage to keep large foreign objects out of the pump*

## Applications

- |                             |                          |
|-----------------------------|--------------------------|
| Water transfer              | Agriculture pond pumping |
| Oil spill response          | Water pit pumping        |
| Diesel and jet fuel pumping | Water charge pump        |
| Wash down pumping           | Pit dewatering           |
| Forestry fire fighting      | Construction dewatering  |
| Irrigation aeration systems | Flood water abatement    |
| Disaster response           | Utility break locations  |
| Waste pumping               | Vessel dewatering        |
| Salvage jetting operations  | Construction Dewatering  |
